

SUSQUECYCLE 2025 REPORT

Another Year of Growth Highlights Demand

SusqueCycle, the Harrisburg region's premier bike share program, continues to grow as an affordable, healthy, sustainable transportation option.

Ridership reached 3,516 total trips in 2025, surpassing 2024 by 7 percent. It did this, in part, by introducing a GPS-equipped fleet, expanded docking infrastructure, and extending the operating season. This growth underscores the community's demand for reliable active transportation and its adoption of SusqueCycle as a critical component of the region's multimodal network.

To enhance accessibility and convenience, more rack locations will be installed in March, expanding the system and growing ridership even further in 2026.

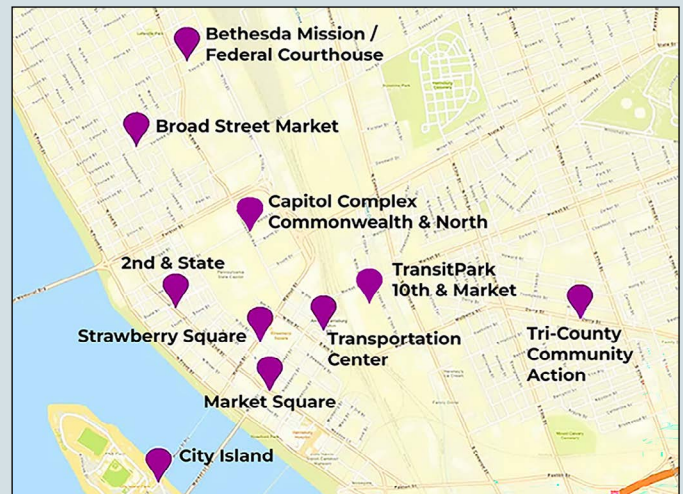

For more information on SusqueCycle, please contact us at planning@tcrpc-pa.org.

THE BENEFITS OF BIKE SHARE —

Bike share systems are growing around the world as people crave a sustainable and healthy alternative to driving.

And while the Harrisburg area continues to develop as a hub for business, tourism and attractions, SusqueCycle offers the added benefit of connecting with the surrounding region -- including other bike share systems in places like Hershey, Lancaster and York.

Here are just some of the benefits of having a vital bike share program in South-Central Pennsylvania:

- Promotes an active lifestyle;
- Provides a cost-effective transportation option;
- Reduces traffic congestion;
- Improves air quality;
- Provides health benefits;
- Promotes tourism;
- Reduces the carbon footprint;
- Promotes sustainable tourism;
- Promotes equity & inclusion;
- Reduces noise pollution.
